CONTEMPORARY FENCING

CEQUENCE
FENCING PERFECTED

Western Red Cedar | Slatted Privacy Fence Panel **PRODUCT DATA SHEET**

These panels are sold in handy 60cm and 90cm high sections that can be stacked above each other to achieve your desired fence height. If your desired fencing height is different you can easily trim off battens as required.

Popular with designers and architects.

If you are looking to introduce a contemporary fence to your garden that respects its privacy, then we have the perfect cedar fence for you.

Cequence privacy panels have wide cedar boards that give the fencing a very clean contemporary look. Offering complete privacy and security, these extra strong panels are built to last.

Each panel is constructed from Western Red Cedar shiplap boards that overlap each other for maximum strength. Built using hidden stainless steel fixings that are designed for use in harsh environments. This panel is the ideal solution for privacy in a garden. The shiplap boards have rebates in them that give an attractive shadow line and slatted look.

These horizontal slatted panels are made from high quality Western Red Cedar. They can be used in conjunction with our Cequence posts and capping for a seamless fence with no visible posts or they can be used with conventional timber and concrete posts.
