

## Cedar Slatted Panel | Privacy Slim

## PRODUCT DATA SHEET

If you are looking to introduce a contemporary slatted fence to your garden, our Cedar Privacy Slim slatted panels are the perfect option.

They are designed to fit together to create a seamless fence with no visible posts. A continuous line travelling around your garden brings a sense of order and calm to outdoor spaces.

The warm Cedar colours are also the perfect backdrop to plant against, or a wonderful foil for sculpture or water features. Create the right look, first time with ease, with Cequence slatted fencing.

Our popular Privacy Slim panels have the unique style of slatted fencing but also have the added benefit of offering complete privacy.

Our standard slatted fencing panels have small gaps between each batten so it is possible to look through the gaps. These Privacy Slim fence panels give the same contemporary look but offer complete privacy without the gaps.

#### KEY FACTS

- High quality Western Red Cedar
- Brings contemporary style to your garden
- Offers complete privacy
- Readymade slatted fence panels
- Creates perfect horizontal lines
- No visible fixings when installed
- Easy and accurate installation every time
- Built with 44mm x 17mm Cedar slim shiplap boards
- 7mm rebated grooves between Cedar battens
- Built with stainless steel fixings

Privacy Slim slatted fencing panels are constructed from high quality Western Red Cedar shiplap boards in our joinery workshop.

These panels are used in conjunction with our posts and capping as part of the patented Cequence system or they can be attached to a wall or existing fence.

This unique panel is the ideal solution for privacy in your garden. The shiplap boards have rebates in them that give an attractive shadow line and slatted look.
