

Cequence | Cedar Posts & Top Of Wall Cedar Posts

PRODUCT DATA SHEET

Pictured: Cedar top of wall fencing

Available with a profile top to suit our capping rails or a flat top.

These posts are used to fix our fencing to the top of a wall. Simply drill a 24mm hole in the top of your wall then chemical fix the post in place with resin anchor glue.

The end product is a neat fence post fixed to the top of your wall with no visible fixings. Cequence top of wall posts are suitable for fixing fencing up to 120cm high. If you want your fencing higher we suggest using our heavy duty post brackets.

Cequence | Cedar Posts & Top Of Wall Cedar Posts

PRODUCT DATA SHEET

Our fence posts are made from high quality Western Red Cedar and come with a post saver sleeve that offers a 20 Year Guarantee against rot.

These posts are ideal for use with our Larch, Redwood, and Cedar fence panels. Please allow at least 60cm into the ground when choosing post length. When concreting the post into the ground make sure that you use the supplied post saver sleeve so that the post is protected from damage and will be guaranteed for 20 years against in ground rot. We also offer post brackets if required.

Treated Redwood fence posts are the perfect compliment to our range of slatted fencing panels. They have a smooth planed finish and have an attractive colour.
