

Cequence | Tanalised Redwood Posts & Top Of Wall Posts

PRODUCT DATA SHEET

Pictured: tanalised top of wall fencing

Available with a profile top to suit our capping rails or a flat top.

These posts are used to fix our fencing to the top of a wall. Simply drill a 24mm hole in the top of your wall then chemical fix the post in place with resin anchor glue.

The end product is a neat fence post fixed to the top of your wall with no visible fixings. Cequence top of wall posts are suitable for fixing fencing up to 120cm high. If you want your fencing higher we suggest using our heavy duty post brackets.
