Contemporary Fencing

Cequence | Minimalist Cedar & Stainless Steel Gate

PRODUCT DATA SHEET

Our latest addition to our Cequence gate range is this well built, beautifully crafted, framed Red Cedar gate.

This gate is perfect for modern gardens where a sleek minimalist look is required.

Looking at the front of the gate the slim edge of the stainless steel frame is hardly visible so the Cedar boards look like they are floating. If you want a gate to disappear into a slatted fence then this gate is for you. Hidden secret gates are very tricky to achieve, make the job easier with an ultra slim Cequence minimalist gate.

Cequence minimalist gates can also be made bespoke sized if required, we can even make double sets if required. So if you want a gate that's more sleek and less frame, this could be the gate for you.
