

Cequence | Larch Slatted Fence Panels

PRODUCT DATA SHEET

These panels were featured in the Gold Award winning 'Lunch Break Garden' at RHS Hampton Court 2022 by Frogheath Landscapes.

If you are looking for a beautiful slatted fence panel, then look no further. Constructed from high quality larch, these fence panels are an easy choice. Our larch fence panels have wonderful colouring and an attractive wood grain. This colouring can be protected and enhanced using UV protection oil or larch can be allowed to naturally age to a handsome silver grey.

Our larch fencing panels are so popular that they outsell every other product on our website! Contemporary Fencing developed this product to provide a more reasonably priced alternative to our Cedar fencing. Siberian Larch has similar properties to Cedar. It lasts a very long time and looks amazing.

These Larch fencing panels are sold in handy 60cm and 90cm high sections that can be stacked above each other to achieve your desired fence height. If your desired fencing height is different you can easily trim off battens as required. The join between stacked panels is invisible so it will look like a single panel once installed.

KEY FACTS

- Quality Larch
- Can be used to create a continuous slatted fence with no visible posts.
- Beautiful colour and grain
- Suitable for contemporary and traditional gardens
- Fast delivery times
- Width Adjustment kits available
- Matching gates available
- Larch is a hard wearing wood that will last outdoors with no treatment. It has natural oils and tannins within it that protect it from the elements
- Larch panels are kiln dried, so if left to naturally age, Larch turns into a handsome silver grey.
- 7mm gaps between battens offers great privacy
