

## Makes the perfect secret gate!

These gates are designed to be fitted alongside our Cequence Slatted Square edge fencing giving a minimalist look. The frameless design means that the gate blends into a fence line giving a hidden gate look. Frameless gates are double sided and have a slatted face on each side.

If you are looking for a quality garden gate look no further, this Cedar gate looks stunning and is built to last. Available in a range of standard sizes or can be made bespoke on request.

The gate has an internal V support so you can hinge it either side.

You may want to order Cedar posts to go with your gate we offer a gate post set that matches perfectly. A range of gate furniture is also available to suit all requirements. if you select a latch from our shop we can also fit this for you together with the hinges.

We recommend Stainless flush hinges for this gate. It is advisable to get us to fit locks to this gate as the double sided frameless design makes things a bit more complicated.
