

## About the Fence

Our new Veil slatted fence panels are made from treated Scandinavian Redwood. The name "veil" means to cover or shield. Our Veil panels can be used to clad over existing fencing for a clean new look or can be used with posts and capping as an attractive screen.

The slatted look of Veil fence panels is a very popular style of fencing. It works in both contemporary and traditional gardens. We have carefully selected the timber for these fence panels, making them the best value slatted panel we offer. The lovely colouring of Veil panels also sets this new panel apart, it also has interesting grain and knots.

Veil fence panels are a contemporary style horizontal slatted panel, designed to create a continuous line of fencing with no visible posts. The most popular way of fitting these panels is to have them fixed to the front of the posts so that you don't have a break between each panel.

The Redwood battens are planed on all four sides and have eased corners.

Product Specification	
<b>Brand</b>	Cequence
<b>Construction Material</b>	Scandinavian Redwood
<b>Batten Style</b>	44mm x 15mm eased corners
<b>Finish</b>	Planed all round
<b>Gap Size</b>	7mm between
<b>Grade</b>	Saw falling

<b>Source</b>	FSC Supplier
<b>Quality Control</b>	In house
<b>Panel Construction</b>	Hidden stainless steel ring shank nails
<b>Guarantee</b>	10 years

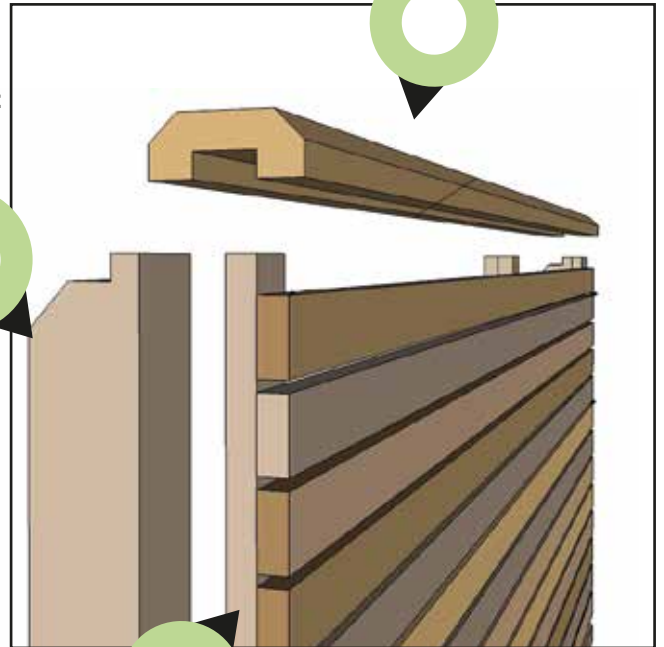

**The Redwood battens are planed on all four sides and have eased corners.**

These fencing panels are sold in handy 60cm and 90cm high sections that can be stacked above each other to achieve your desired fence height. If your desired fencing height is different you can easily trim off battens as required. The join between stacked Veil panels is invisible so it will look like a single panel once installed.

Don't forget to buy screws to attach your panels to posts - you can find our 63mm powder coated screws in the fixing section of our website.
